

...summer camp that
campers themselves? Below are quotes from a
few of the children who have attended Summer
Camp at the Florida Air Museum.

Thank you so much for helping me to attend
summer aviation camp. You helped me learn so
much about airplanes. I even got to fly in a
plane for the first time in my life.

I have decided on my future career. Also, I
have learned things this past week that may
benefit me for years to come.

In one week I have learned more about planes
than I ever have. It was a great experience!

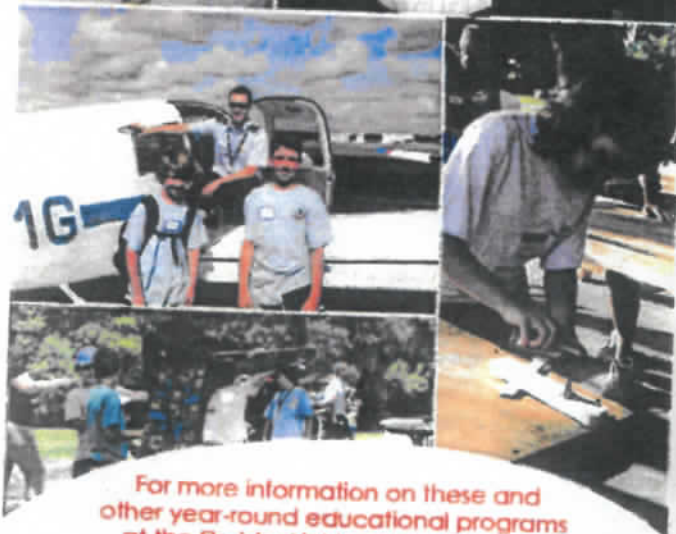

I had a wonderful time. We flew on a cross-
country trip and trained on simulators. Thank
you for the chance to pursue my dream.

This week has been a very productive experience.
I actually got a chance to fly an airplane.

I have greatly enjoyed this week at aviation
camp. I feel that I have learned much about
piloting and it has definitely helped me in
deciding to learn more about flying.

But that's not all! In a post-camp survey,
parents strongly praised the program, felt it was
extremely beneficial to their child and hoped he
or she would have the opportunity to attend
camp again.

SUMMER CAMPS

FLORIDA AIR MUSEUM®
at SUN 'n FUN®

Florida's Official Aviation Museum & Education Center

Destination Aviation SUMMER CAMPS

Destination Aviation Day Camp Ages 11-18

Destination Aviation Day Camp for ages 11-18 is an age appropriate, flight based curriculum that varies from year to year. As campers mature, their tasks become more complex and challenging. Campers learn about the parts of an airplane, aerodynamics, basic navigation, weather, prepping and flying aircraft. Visits to the restoration center prepare campers for fabricating their own wing ribs and understanding aircraft construction. Flight simulators are used to practice skills and reinforce learning before they are given an opportunity to fly an airplane with a Flight Safety International flight instructor. Advanced ages will also use DaVinci cad programs to design their own aircraft. Camp activities are indoor, in one of our education facilities and outdoor on our beautiful campus. Partial Scholarships (up to \$200) available.

Destination Aviation Residential Camp Ages 11-18

A residential option is available for an additional \$375. Residential camps run concurrently with day camp but receive additional evening programs, a night flight and flight simulator time. The residence facility is located inside the gated SUN 'n FUN Campus with security living on-site. Campers are under 24 hour supervision. Arrangements can be made for special diets and other needs.

STEMtastic SUMMER CAMPS

Science, Technology, Engineering, Math Ages 7-12

The STEM curriculum is age appropriate and includes rocketry, flight simulators, various challenging activities and hands-on construction throughout the week. These activities are held in indoor and outdoor environments. \$150 per week and includes all materials.

For registration materials or for more information about Summer Camps visit www.FloridaAirMuseum.org. You may also call the Florida Air Museum's Education Department at 863.904.4073 or email Educate@sun-n-fun.org.

Valuable donor support helps the Florida Air Museum provide quality educational experiences to as many children as possible. Won't you consider making a tax-deductible donation today? To learn more visit www.FloridaAirMuseum.org, click MAKE A DONATION.

Do you know a young person who would be interested in attending Summer Camps at the Florida Air Museum?

The camp schedule and pricing for 2011 are listed below. (Scholarships are available.)
